7.2.1 Best Practices 2

Title of the Practice: Plastic Free Campus

Objectives:

1. To measurably reduce plastic waste and pollution in college campuses and the world around them.
2. To eliminate plastic pollution and its toxic impacts on people and on the environment.

The Practice:

This practice has been started with the aim of minimizing the generation of plastic waste in the college campus. There is no dispute about the fact that the plastic waste has become a menace and is extremely difficult to control. As a Higher Education Institute it is a moral responsibility for us to not only take care of the plastic waste that we generate but also be able to take the cause of plastic recycling beyond the confines of the institute.

Obstacles Faced/Resources Required:

There were number of barriers in executing plastic free campus campaign. It was a tedious task in banning plastic completely in the campus.
Problems Encountered and Resources required- Plastic recycling requires segregation of plastic as per their grade which is a difficult task.

Evidence of Success:

The students and the college has become a part of the green campus campaign. The concept of green campus campaign and environmental friendly practices in the campus resulted in developing a clean and green campus. And to also promote sustainable and eco-friendly practices in the campus the students
