#### Part B

### **CRITERION I – CURRICULAR ASPECTS**

#### 1.1 – Curriculum Planning and Implementation

1.1.1 – Institution has the mechanism for well planned curriculum delivery and documentation. Explain in 500 words

Shri Chinai College of Commerce and Economics is affiliated with the University of Mumbai.The institute has developed a structured and effective implementation of the curriculum through various means.At the beginning of the academic year, our college prepared the academic calendar, and all of the teachers created lesson plans to aid in the delivery of the curriculum.The college principal meets with the faculty to discuss strategies for implementing the curriculum successfully.When first-year students visit the college to inquire about the various courses available, they are provided with the college prospectus, which contains curriculum information. All teachers deliver the syllabus for their respective subjects to students before the teaching-learning process begins. Teachers discuss course objectives, teaching methods, and evaluation methods.

Students have full access to the syllabus files, which are kept by department heads. The college library is essential for curriculum development and implementation. The library helps teachers and students carry out the curriculum by providing text books, reference books, magazines, subject journals, and internet access. The college website reflects the institute's operations. Our college's website is regularly updated with information on various courses and curriculum. The curriculum is also easily accessible to our students via the college website. The website of the Shri Chinai College of Commerce and Economics also includes information on the university's courses and programmes, as well as their curriculum, as well as extra information about various College events. A well-planned timetable is one of the most important ways to ensure that the curriculum is effectively implemented. A timetable can be used by teachers to plan the successful execution of teaching-learning processes. Students' academic and overall performances are continuously evaluated. As a result, it is important to conduct unit tests, semester exams, and organise co-curricular and extracurricular activities. In addition, feedback on the curriculum is obtained from students, parents, and alumni. There is regular communication between the coordinators, teachers, and students in order to resolve curriculum incongruities and other situational difficulties, if any. Remedial lectures are delivered on a regular basis to assist students in understanding the subject. In a nutshell, well-planned and executed curriculum results in effective teaching learning processes and continuous assessment throughout the academic year.

#### 2.5.2 - Reforms initiated on Continuous Internal Evaluation(CIE) system at the institutional level (250 words)

Proper systematic process inculcated in order to carry on the activities .Systematic and Continuous Internal Evaluation was carried out for all classes by various departments for which University norms were strictly adhered. However certain innovative initiatives were undertaken by various departments. As an Educational institution affiliated to university of Mumbai, Institution carefully implemented the curriculum as designed by the University of Mumbai, we followed the curriculum and accordingly as per the curriculum of course each department implemented the course as per the guidelines mentioned in the curriculum, each department makes their own and separate semester wise continuous internal evaluation in the institution. As per the rules each department conduct internal assessment unit test of 25 marks and as per the marks obtained by the students, internal assessment can also be done effectively. Similarly project assignment, seminar, theory assignment and practical assignment also evaluated as per the rules of university of Mumbai. Schedule of Internal examination, Seating arrangements, Hall invigilators systematically pre planned and listed during every examination. Preparation of question paper is carried out by HOD/ Subject expert to ensure quality of the question paper. Regularly monitoring the attendance of the students for the

examination. Internal assessment has to be carried out within the prescribed time. Performance of the students in internal assessment is very useful for faculties to identify between slow and advanced learners in their respective subjects. Slow learners are motivated and also encouraged to improve their academic performance in the near future. The active evaluation of project course is assessed by conducting periodical project guidance lecture by the respective faculty on the basis of key parameters like problem formulations, understanding of the project, presentation skills, and communication of ideas, technical knowledge, and project management. All these activities are carried on as per the guidelines and instructions provided by the university of Mumbai. A systematic preciseness has been followed while conducting all these activities in order to maintain a discipline while practicing and implementation.

2.5.3 – Academic calendar prepared and adhered for conduct of Examination and other related matters (250 words)

The examinations of all three years were conducted by the college on behalf of university of Mumbai. Time Table was displayed on the college notice board and also in the respective classes. It was also available on Mumbai University website. Changes in the examination schedule too were communicated to the students immediately. Conduct of examinations included paper setting at University level for all three years and assessment, moderation and declaration of results for first year and second year at college level. Examination Committee also conducted Additional examinations for the students who could not appear for regular examination due to the grounds prescribed by the University of Mumbai. The additional examinations were conducted as soon as the circular to conduct these examinations was received by the college. This information included the conduct of ATKT examinations. CAP was observed for assessment of papers. The dates of declaration of results were displayed on the college notice board. Institution prepares a calendar as per the scheduled prescribed by the affiliating university for implementation of Curriculum, Extracurricular and co-curricular Activities. As per the university rules and regulations academic activities run by the college throughout the year. At the beginning of the session institution prepared an academic calendar in order to organised the curricular and extracurricular activities in the institution. Proper measures are taken care of while preparation of academic calendar in order to maintain its importance.

| the usage of paper as much as possible. The underlying principle is to reduce<br>ecological footprints of our operation. It will help to reduce the usage of<br>paper and help us save cost, it would also digitize our office and make the<br>storage and retrieval of documents easier and quicker. Practice Plastic Free<br>Campus Objectives of the Practice This practice has been started with the aim<br>of minimizing the generation of plastic waste in the college campus. 3. The<br>Context There is no dispute about the fact that the plastic waste has become a<br>menace and is extremely difficult to control. As a Higher Education Institute<br>it is a moral responsibility for us to not only take care of the plastic waste<br>that we generate but also be able to take the cause of plastic recycling beyond<br>the confines of the institute. |  |  |  |  |  |  |
